## PRODUCT UPDATE

### Parker Food and Beverage Hose

#### *3-A Certification Update / Hose Branding Change*

Effective immediately, the classification of select food and beverage hoses has moved to the 3-A recognized hose assembly *component* standard from the 3-A hose assembly standard:

- From: 3-A Standard 62-02 (Hose Assemblies)
- To: 3-A Standard 18-03 (Multiple Use Rubber and Rubber-Like Materials)

Effective with new production, Parker will implement changes to the branding of affected hoses:

- Remove the 3-A symbol
- Add “3-A RPSCQC CERTIFICATE #33”

**RPSCQC = Replacement Parts and System Component Qualification Certificate**  
**#33** designates the specific Parker Hannifin certificate

Affected hoses:

SM382	SS232	SW431
SP330	SW319	SW630
SS197	SW373	SW640
SS200	SW430	

Concurrent with this update, Parker will no longer offer food and beverage factory hose assemblies. However, 3-A factory hose assemblies previously supplied by Parker meet 3-A requirements.
